Our findings:

So we are planning to put the new Coca cola vending machine next to the cafeteria's vending machines. The reason why we choose this place is because we don't wanna drink Pepsi cola when we are having breakfast/lunch/dinner. It's good for everyone , because we can have coke during meal and school can earn money from it, and it is super convenient than the other vending machines because it can use coke on app to pay , and it is really easy to accessible cuz it is in front of the cafeteria
